Remarks:Hoists with the lift in other length are also available.

H-Lift Industries Co., Ltd.

CHAIN HOIST

CHAIN HOIST CH-B TYPE

Features:

-Light weight robust construction.
-Automatic double pawl braking system.
-Extra thick asbestos-free friction discs.
-Drop forged alloy hooks are designed to stretch when overloaded before chain failure and are equipped with integrated heavy duty safety latch.
-High grade alloy steel load chain and zinc plated hand chain.
-Each hoist is proof tested at 1.5 times the rated capacity for rated capacities less than 20t and 1.25 the rated capacity equal to or greater than 20t.
-Complies with EN13157, ASME B30.16, AS1418.2, SANS 1594.
-Overload protection(optional).
-Bottom hook with bearing(optional).
-Chain bag (optional).
–Needle roller bearing between load sprocket and side plates (optional).
